

**FIRST SECURITY GROUP- TRAINING, DEVELOPMENT & CERTIFICATION CENTRE
HAS PROUDLY CERTIFIED MORE THAN 6000 LIFEGUARDS IN THE REGION**

The Dubai Municipality has introduced stringent measures to ensure the safety & security of pools, water fronts and beaches. The necessity of adequately qualified lifeguards to man these areas has prompted the authorities to form a Lifeguard Scheme Committee, the findings, and conclusions of which led to the decision that lifeguards need to be adequately certified and licensed to perform their duties.

The Lifeguard Scheme Requirement introduced by the previously known DAC: Dubai Accreditation Department (Presently known as EIAC- Emirates International Accreditation Centre) – of Dubai Municipality (Dac-Req-17: April 2015) has addressed these issues and specified certain pre-requisites, skills requirements, and code of conduct for lifeguards on duty. The Lifeguard Scheme Committee (LSC) had been initially formed choosing highly qualified professional individuals to establish standards to fairly set up and measure the knowledge and proficiency required for the safe lifeguarding of pool, waterparks, and beachfront. The certifying body are accredited by EIAC for being fully compliant with ISO/IEC 17024:2012 Requirements for Certification Bodies to Certify Persons.

FIRST SECURITY GROUP is fully in compliance with EIAC Lifeguard Scheme Requirements to upkeep and enhance the safety & security of the community. To remain fully compliant with the ISO standards, we are regularly audited and monitored by EIAC for the certification for Lifeguards(Pool/Beach & Shallow Water) as well as the Lifeguard Instructors who can be certified to train persons to meet the criteria for assessment. All Centres are welcome to send in their Instructors to get assessed and certified should they meet the standards. We have established a separate Assessment and Certification Office at our Al Quoz Training Facility. This department has a team of highly qualified and experienced individuals working closely with the Dubai Municipality officials, to ensure overall compliance.

First Security Group declares impartiality and integrity in their certification activities. Our policies and procedures as well as all requirements for registration are elaborated in the links given below:
